SUMMARY

Passionate Front-End Developer aiming to contribute to team success and continuous growth. I seek a company that values creativity, learning, and innovation, where I can apply my skills to real-world projects and be an active, productive team member. I strive to work in a professional environment that supports my development and enables me to effectively contribute to achieving organizational goals.

EXPERIENCE

ProSite Yemen | Sana'a

Front-End Developer / Software Engineer | April 2024 - March 2025.

- Developed and maintained responsive web applications according to client requirements.
- Applied best practices in semantic HTML, modern CSS (Flexbox, Grid), and JavaScript.
- Implemented UI designs from Figma ensuring responsiveness and usability.
- Utilized Git and GitHub for version control, clean code management, and collaborative development.
- Contributed to debugging, performance optimization, and continuous product improvement.

Code Alpha | Remote, India

Intern | Front-End Developer | June 2025.

- Completed a remote internship, working on three projects to enhance skills in HTML, CSS, and JavaScript.
- Solved technical challenges while ensuring timely, high-quality delivery.
- Gained experience in remote environments, improving communication and collaboration.
